

CREATE BERLIN

## +EYE Bloomy Knight

Bloomy Knight stands for a future Berlin full of creative activity, confidence and idealism. Goldenhued lace embroidering and a designer art toy made from shiny metal combine tradition with the modern, simplicity and daring with beauty and poetry – facets of a future Berlin.

**kex-spitzenkultur** has been creating its own line of accessories made from self-created lace embroidering designs for over three years.

The design and workmanship of the top-quality laces from lace designer Anita Keckeis is based on 15 years of experience in lace embroidering design. Each decorative textile creation is limited to 98 pieces.

**Zeitgeist Toys** from Berlin creates limited edition “designer art toys” with a clear, reduced formal language. The figures are produced with traditional, handcraft methods. Each touch reveals the special qualities of the material—a special treat for the aesthete and collector.
