APRIL
2013

KEX-ACCESSORIES are textile-jewels. I put a great emphasis on their independence and autonomy from fashion trends while attracting self-confident and modern women. Every single scarf, collier and belt is produced in a limited edition of no more than 98 items. No mass product, no clearance sales – KEX will keep its exclusiveness and timeless value.

FACETS of non-clichéd beauty, independence, intellectual flexibility and experimental creativity are my main tenets.

MY GOAL - beyond designing embroidery-lace and creating exclusive textile-jewels, is to cooperate with creative people across genres and borders, bringing together fashion, painting, music, modern dance, film and literature.
